To whom it may concern,

Digital Payment Technologies (DPT) is a world leader of the design, manufacture, and distribution of multi-space parking meters, management software and online services sold mainly to universities, airports and hospitals. We have been using Synergy Stockpiles business development services for nearly two years and our overall rating of the services is a 10 out of 10. I personally oversee our company's business growth initiatives and as such have watched our business grow at an exceptional pace that stemmed from the qualified appointments set for us by Synergy Stockpile.

I want to take this opportunity to highly recommend Synergy Stockpiles business development services. All of the staff at Synergy Stockpile are professional and knowledgeable. I must, however, single out one in particular Colette Myers, who has done an exceptional job and it's fair to say has given our sales department a huge boost as we are going on 50 appointments. What more is there to say!

Synergy Stockpile is a reliable and effective service and if you have any questions to feel free to contact me.

Sincerely yours,

A handwritten signature in blue ink, appearing to read "Michael Wright", is written over a blue horizontal line.
